

ICEK X4 Cooler (2nd generation)

De ICEK X4 Python Cooler is a revolutionary powerhouse when it comes to fast and durable cooling. Durable because the X4 consumes 45% less energy than comparable conventional coolers with the same capacity.

Like all ICEK X-coolers, the X4 utilizes ICEK's patented technology. This power house makes it possible to serve up to 2.500 liters of beer per hour!

Technical description	X4
Dimensions (L x W x H)	907 x 540 x 728 mm
Watertank capacity	61 liters
Weight Ice Block	45 kg
Isolation watertank	Polyurethane foam
Number of Beer Spirals	4
Coolant	R290 propane
Thermostat cooled python 1 adjustable	-10° C / + 12° C
Thermostat cooled python 2 adjustable	X
Power connection	220-240 V / 50Hz / 110-115 V / 60Hz
Power consumption (approx.)	820 W / hour
Cooling capacity in Watt (approx.)	2.400 W
Cooling capacity in Kilocalory (approx.)	2.064
Tap flow capacity (approx.)	300 l / uur
Evaporation temperature -10° C	√
Number of python connections	1
Excluding	Python duct(s)
